HAMILTON CTK PAY STATION

CTK includes the same features of the larger HTK, but takes up a smaller footprint by eliminating cash and coin acceptance.

It is an efficient and secure pay station requiring minimal upkeep and maintenance, making it ideal for unattended parking lots and structures.

TICKET MANAGEMENT

An available Cashflow validator can be used to ingest and validate tickets, keeping your parking lot clean and free of litter.

CTK WRAPS

CTK is available with door, cabinet, and base wraps to give your pay station a strong visual presence.

The large surface area afforded by a CTK lets you enhance entry/exit lane visibility and market parking rates, companion businesses, or any other service you wish to promote.

If you opt for a custom design, our team will work closely with you to ensure CTK matches your existing site branding and color scheme.

Don't have an identity yet, or looking for a new one? We also offer complete brand design services.

TOUCH SCREEN THEMES

Custom themes are a great compliment to a customized CTK wrap, and are available for any new or existing unit with a 15" touch screen.

We incorporate all elements of your brand to ensure a strong, consistent image is presented to your customers throughout the transaction process.
