SCROLLING LED DISPLAY FOR GOLD LINE® & ACW 4/5

With big and bright characters, the LED display makes completing transactions easier for your customers by offering excellent visibility in the sunlight. Up to 20 possible message characters can be displayed, scrolling from right to left.

The red LED display is available for retrofitting into existing Gold Line® and ACW 4/5 machines. It also comes standard on new ACW controllers, and is a no-cost option when purchasing a new Gold Line® Autocashier.

FEATURES:

Big, bright, red LED scrolling display | Easy to read in the sunlight
Further enhance with a red plastic filter | Drop in replacement – no circuit board modifications needed!

SPECIFICATIONS:

7 x 45 LED Matrix | 0.7" Tall Characters | 20 Characters per line

TOOLS REQUIRED:

Flat head screwdriver | Phillips screwdriver | Nut driver

GOLD LINE®
GRAPHIC DISPLAY

Give your customers a more engaging and user-friendly experience with the 5.7" QVGA LCD Gold Line® *Graphic Display*!

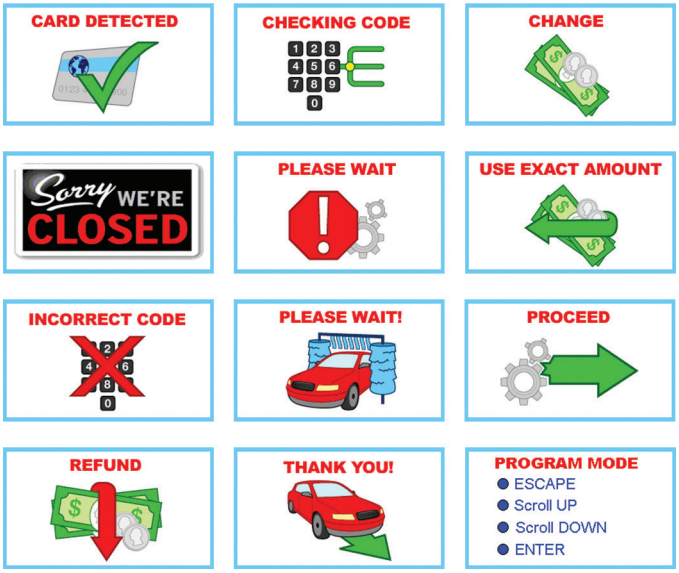
The bright and large display comes with all neccessary prompts and accompanying graphics to guide your customers through their purchase with ease. After 5 minutes of non-use, the display dims to help extend its life and reduce power consumption.

The 'Welcome' screen can also be customized with your logo or message.

The *Graphic Display* is available for both new and existing Gold Line® Autocashiers.

Standard 'Welcome' screen

Sample custom 'Welcome' screen



The Graphic Display comes with a total of 44 standard prompts
