

# HAMILTON TIME PASS®

## Variable Rate Parking Control System

The **Hamilton Time Pass®** system is the easiest way to increase revenue and reduce overhead costs, while allowing you to collect parking fees at variable rates 24 hours a day, 7 days a week!

Our package includes the **Ticket Vendor, Hamilton HTK**, and the **Time Pass Network System**. The Ticket Vendor is located at the entrance to your facility, dispensing a ticket to all inbound customers. The HTK, stationed at the exit, calculates the fees, displays the amount, accepts payment, returns change, and operates the gate.

Fees may be collected via the bill acceptor (cash or Tokenotes®), the coin acceptors (coins or tokens), or the card reader (both magnetic stripe and EMV Chip & PIN solutions are available).

Choose our **Cashless Transaction Kiosk (CTK)** if your business model calls for card-only payments.

# HAMILTON TIME PASS®

## Variable Rate Parking Control System

### THE TIME PASS® TICKET VENDOR:

The **Time Pass® Ticket Vendor** will issue a secure ticket with a barcode at the entrance of the lot. Ticket dispensing can be triggered by a loop sensor, treadle, or by pressing the button.

The Ticket Vendor is an independent unit, making retrofitting an existing lot easy.

The Time Pass® system allows you to have up to eight Ticket Vendor's and HTK's in any combination.

#### Features:

- Stainless steel cabinet with enamel finish
- Access doors on both left & right offer flexible installation
- 2 heavy duty Medeco® plug locks

#### Specifications:

- Cabinet size: 50" H x 14" W x 17 2/3" D
- 127 cm H x 35.6 cm W x 44.8 cm D
- Power: 120 VAC, 60 Hz
- Weight: 185 lbs/84 kg (approximate)

### HAMILTON TRANSACTION KIOSK (HTK) & CASHLESS TRANSACTION KIOSK (CTK)

The **HTK**, stationed at the exit of the facility, reads the barcode from the ticket, calculates the fee, displays the amount, and accepts payment in cash, coins, credit cards, Tokenotes®, or validated codes. The HTK also provides change in coins or bills with the optional dual bill dispenser.

The **CTK** requires a smaller footprint than the HTK, and accepts payment by credit cards or barcodes. High speed credit card processing is standard.

#### Features:

- Barcode reader
- Remote access
- Text & email alerts
- Security camera
- Alarm
- Password protection
- Call button
- Male or female voice prompts
- 11-gauge stainless steel door
- Power: 115 VAC 60Hz
